

The Perfectly Balanced Solution

The new Jaz from Ocean Optics is the portable, modular sensing suite that is perfect for absorbance, irradiance and more. Its small footprint and sleek, expandable design makes Jaz equally at home in the field or in the lab. Simply mix and max Jaz's stackable modules to create systems for thousands of optical-sensing applications.

Customize yours to fit virtually any need... beautifully.

- Powerful Onboard DPU and Display
- Linear CCD-array UV-VIS Spectrometer
- Ethernet Module* with Memory Storage
- Battery Module* with SD Cards
- USB and Internet Connectivity
- Stackable, Autonomous Modules

*Optional Item
